

Product End-of-Life Notice: v1x3, v2x1, v4x1, v12x4 Injection TAPs

Please refer to the "Lifecycle Description" document, GBEI-2012-006.

Notification Date: August 9th, 2012

Dear Customer,

This is a last time buy (LTB) notice for all of VSS dedicated injection TAPs. This affects the following part numbers: **V 1.3 C.C-E-IS, V 2.1 C.C-F-I, V 4.1 C.C-F-I, V 12.4 C.C-F-IS.**

These products' capabilities have been replaced by the Protector 1G Copper products, which have been shipping for 1.5 years now, and include the models: Protector 204, Protector 408, and Protector 612, which have a superior functionality set.

This means that as of **November 1st 2012**, the **V 1.3 C.C-E-IS, V 2.1 C.C-F-I, V 4.1 C.C-F-I, V 12.4 C.C-F-IS** products will no longer be available and orders will no longer be accepted for these.

Regarding support, these products have been in Software Maintenance mode since the beginning of 2010.

Hardware support will continue to be provided until at least **October 30th, 2014**, and for 5 years following purchase of any new product.

Product training availability will also continue to be provided until **December 31st, 2013**.

Please consult your local VSS Monitoring Inc. representative with any questions or needs for support, including a "Trade-In Program".

Thank you for your cooperation in this product transition. We regret any inconvenience that discontinuing this platform may cause your organization.

Our sales and support staff are available to assist you in any way possible.

Gordon Beith
Product Management Director
VSS Monitoring Inc.
