

Product End-of-Life Notice: (Gen I) v1x2 10/100/1000 Aggregation TAP

Please refer to the “Lifecycle Description” document, GBEI-2012-006.

Notification Date: April 30th, 2015

Dear Customer,

This is a last time buy (LTB) notice for the first generation model of the **v1x2 10/100/1000 Aggregation TAP**. This affects the following part numbers: **V1.2C.C-F-A** and **V1.2 C.C-F-A-DC**. The second generation model **VF_01256** and power adaptor part numbers (**VP_01998** for dual AC, **VP_01999** for dual DC) replace these first generation models.

As of **August 1st, 2015**, the **V1.2C.C-F-A** and **V1.2 C.C-F-A-DC** part numbers will no longer be available and orders will no longer be accepted for these products.

The direct replacement model is **VF_01256**, with power adaptor options available under **VP_01998** for dual AC, **VP_01999** for dual DC.

As this product has a direct replacement, it is expected that training will simply transition to the new model **VF_01256**.

Regarding support, Hardware support will continue to be available until at least:

- **July 31st 2017** for **V1.2C.C-F-A** and **V1.2C.C-F-A-DC** products purchased during the LTB period between **April 30th 2015** and **August 1st 2015**, or
- **Up to 5 years** from the date of purchase for those products purchased prior to the respective LTB periods.

Product training availability will also continue to be provided until **July 31st 2017**.

Please consult your local VSS Monitoring Inc. representative with any questions or needs for support.

Thank you for your cooperation in this product transition. We regret any inconvenience that discontinuing this platform may cause your organization.

Our sales and support staff are available to assist you in any way possible.
